Camp Lamplighter has partnered with the Dallas Arboretum this summer to offer hands-on, wild and wonderful outdoor experiences for children! Experienced Dallas Arboretum educator, Christina Garza, leads four special one-week camps that explore the science and beauty found in nature. Each week has a new theme – choose one or sign up for all four camps. Dallas Arboretum camp sessions run from 8:00 a.m. - 12:00 p.m., Monday - Friday, and are open to rising 1st - 4th graders. Your child will be sure to love every moment!

**Week 1:
Insect Hotel**

Learn all about the secret life of our tiniest friends – insects! In this camp, students will learn about insect life cycles, where and how to find them and which ones we should attract to our backyards. The camp culminates with the creation of your very own insect hotel to take home! Activities may include: insect traps (pitfalls, beat sheets, nets, fruit traps), bug scavenger hunts and nature walks.

**Week 2:
Call of the Wild**

There are so many fun and easy ways to attract wildlife to your backyard. In this camp, you will learn about different types of animals that could call your backyard home and create microhabitats for them, including toad abodes, seed bombs and bird feeders! Activities may include: using digital bird calls and backyard habitat mini-lessons.

Week 3: GIY: Grow It Yourself Garden Lab

This is the camp if you're looking for a DIY approach to backyard gardening. Create your own garden supplies and use things from the garden to make your own cool items that you can keep for yourself or make the perfect gift for friends and family. Activities may include: DIY seed tape, pressed plant journals, sleepy herb sachets, DIY plant press, and eco-pots.

**Week 4:
Pick Your Pallet**

This camp gives you all the tools you need to design your own patio pallet garden. We will explore nature's color palette, dive into landscape design and examine a variety of gardens suitable for your house. Have you ever thought about your own pizza or salsa garden? If so, this is the camp for you! Then, you will build your very own mini pallet garden to take home.
